- Help families build resilience in their children.
- Improve specialized treatment and care effectiveness by helping to bring balance and calm to the child's home life.
- Enrich your professional practice with new theory and skills.
- Gain a thorough understanding of the Simplicity Parenting Change Process and develop skills to guide clients through it in an effective manner.
- Review childhood brain development and how cognitive limits and capacities relate to Simplicity Parenting.

"On a professional level, I am thrilled to have this knowledge and plan to implement it in my discussions with couples who have children. We all need more simplicity in our lives. I believe that this will be a nice addition to my practice".

– Feedback from a course participant, 2013
